RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT

This is in response to the Notice of Non-Compliant Amendment mailed on May 2, 2006. The amendment filed on February 13, 2006 was determined to be not fully responsive because it failed to elect a single species for each of: (1) carrier molecules, (2) one or more active substances, (3) sol/gel precursors, (4) composition form.

In response to the requirement set forth in the Notice of Non-Compliant Amendment, Applicants hereby select the species cyclodextrins for carrier molecules; perfumes for one or more active substances; tetramethyl orthosilicate for sol/gel precursors; and a gel matrix in the form of a film for the composition form.
